Stewart of the University of Utah. The gentleman spoke en-ouragingly for the introduction into our schools of kindergarten teaching for the children, and other necessary ranches of education. His lecture was llustrated by 30 stereopticon views. One of the most pleasing and enter-

Dusenberry, president of the state kindergarten association, which was ted by the convention. The resoution pledges the ladies of the federaion to exert their every effort to have the coming session of the state Legislature pass a law providing for the opening of free kindergarten instruc-tion in the public schools. AN IDEAL MEDICINE. A New Discovery Which Cures all Forms of Catarrh.

The tablet is the ideal form in which to administer medicine, but until re-cently no successful catarrh tablet had ever been attempted. There is now, however, an excellent and palatable remedy for catarrh in tablet form, known as Stuart's Catarrh Tablets and sold by druggists, composed of the most recent discoveries in medicine for cure of catarrh and results from their use have been highly gratifying.

The old time treatment of catarrh was in the form of inhalers, washes, douch-

es, sprays, etc. Later on internal reme-dles were used with greater success, but being in liquid or powder form were inconvenient. onvenient to use and like all medicines in liquid or powder form, lose their medicinal properties when opened

or exposed to the air.
Stuart's Catarrh Tablets contain highly concentrated antiseptics, Hydrastin, Blood root, and Red gum which kill the catarrh germs in the blood and mucous membrane, and in this respect are strictly scientific and modern, be cause all authorities are now agreed cause all authorities are now agreed that catarrh is a constitutional blood disease, and local applications can have only a transitory effect.

The use of inhalers, douches and sprays is a nuisance and inconvenience and the convenience conductor in the compare favorably.

and can in no wise compare favorably with the same antiseptics given in tab-let form internally, where they can reach the stomach and blood and kill catarrh germs right where they are produced.

A prominent lawyer and public speaker of Pittsburg says: I have been troubled with catarrh of the head and throat for twelve years. In this climate seems impossible to get rid of it The continual dropping of mucus from the nose into the throat caused irritation and hoarseness, seriously interfering with my public speaking. It took be an hour or more of coughing, gagging, expectorating and sneezing every morning before I could settle down to work and this condition gradually brought on catarrh of stomach, causing loss of appetite, poor digestion and a foul breath, which annoyed me exeedingly. My physician advised me ry Stuart's Catarrh Tablets and I took them for two months and was aston-ished to find how quickly they cleared my head, throat and stomach and l have no hesitation in recommending them. They are not only pleasant to take, but they seem to get at the very root of the trouble, because since using them I have had no trace of catarrh. Druggists sell Stuart's Catarrh Tab-ets at 50 cents for full sized package. They can be carried in the pocket and used any time and as often as desired since they contain no cocaine, mercury

Of Contagious Blood Poison never exis-It is always bad, though sometimes no external symptoms of the disease appear for a long time.

Because the disease is slow in developing does not indicate that the case is a mild one, for the poisonous virus at work in the blood and system may be spending its force upon some internal vital organ while you are looking for external signs. Contagious Blood Poison does not affect all alike. In most cases the first little sore is quickly followed by painful swellings in the groins, a red eruption upon the body, sores or ulcers n the mouth and throat, unsightly copper colored blotches, loss of hair and eyebrows and other symptoms of this miserable disease. When the poison is thus fighting its way to the surface, exposing the disease in all its hideousness, we call it a bad case; but Contagious Blood Poison, whether working internally or externally, is a dangerous, treacherous disease. S. S. S. is the only remedy that cures Contagious Blood Poison thoroughly and permanently. It is an antidote for the deadly virus that produces the awful eruptions, sores and ulcers, and destroys the bones. Mercury and Potash dry up the skin eruptions, but in so doing drive the poison further into the system, where

it slumbers for a time, but comes back again with redoubled fury. S. S. S. is a vegetable remedy that has been used successfully for years in treating this viledisease and cures it in all stages and forms. If you have the slightest symptom; an occasional sore mouth, or muscular and bone ingthis viledisease and or muscular and bone

pains, your blood is tainted and the disease is liable to break out again at any time. A course of S. S. S. will remove every trace of poison and at the same time build up your general health.

The fire started at the back part of the yards and got under good headway before discovery, and in a few minutes everything about the yard was enveloped in the flames. Mis. Roberts was quite badly burnt about the head and face while endeavoring to save the pigs. Her burns are not serious, but very painful. It is sup-posed that small children with matches aused the conflagration. The loss is about \$200, and comes very heavily upon Mr. Roberts as he is a poor man and at the time of the fire he was away in he mountains after timber. Thatcher, Graham Co., Artz., Oct. 27. -Last Thursday afternoon, agreeable to arrangements made for some time by the L. D. The people's guests were met at the depot by the President Andrew Kimball. In re-sponce to a salute from the boys in blue the governor said that nowhere in Arizona had he seen a larger or better

At 7:30 the guests arrived at the academy, which, with the grounds, was beautifully decorated. As the guests and their escort stepped upon the platform, the whole school arose and greeted them with "All Hail to Arizona, the Sun Kissed Land," the chorus of the territorial anthem. A speech of wel-come was made by Prof. Maeser and appily replied to by his excellency. At 10 a. m. Friday a grand parade took place. The school boys had sprin-kled the street, and every business house and the residences bordering on the national colors, flowers, etc. A beautifully decorated arch was erected in front of the old academy building. As the carriage conveying the guests, ac-companied by President and Mrs. Kimball, stopped under the arch a salute was fired by the guard, and they then fell in line, followed by the factulty and pupils of the academy and about 500 school children.

MAY FIGHT HERE.

Arrangements for Bont Between Clifford and Aurelio Herrera. In all probability there is to be some-

thing doing here in a fistic way this winter. The following is from the San Francisco Bulletin: "Billy Gardner and Aurelio Herrera will not meet before the San Francisco club on the 31st. Gardner would not have sufficient time in which to pre-pare, and he did not want to take any chances with the hard-hitting Mexican. The next man to be selected for Bishop's fighter will probably be Jack Clifford of Montana. The latter has been communicated with, and if he is willing to do 133 pounds ringside Herrera will take him on. The fight will take place at Butte or Salt Lake if it

Arrangements are now on to bring Jack Root and "Kid" McCoy together in Chicago, and if the match is made it should furnish one of the most attrac tive events of the boxing season. The Lyceum Athletic club, which has just been organized and incorporated, is to take its place in the field and has leas. ed the old Lyceum Theater on the Westside.

The club is to run in the regular way

and the present plans are to give the opening show Nov. 3. No match has yet been completed for the opening card, but Root and McCoy are billed to be an attraction at one of the early shows, if not the first.

The new club has chosen Monday evening because it has been well dem-

onstrated that that evening is the best onstrated that that evening is the best. It may bring a conflict with the American Athletic club unless it is avoided by a division of the dates. Paddy Carroll is to be the matchmaker of the new club, but a referee has not yet been chosen. The club is just organized and nearly all the details have yet to be arranged.
